

Packard Bell **i**media desktops

Enjoy the power

- Upscale design, with smooth forms
- Small and compact
- Full of power
- Smart features for an enhanced user experience

The Packard Bell **i**media desktops are the perfect solution for people who seek high performances without renouncing to design.

With VISION Technology from AMD and featuring AMD Phenom™ X6 or the AMD Phenom™ X4 processors¹, Packard Bell's successful **i**media desktops are now more powerful than ever and let you enjoy an immersive HD entertainment and visualization. With VISION Technology from AMD Packard Bell **i**media desktops are perfect to create, edit, render and transfer HD video without skipping a beat. This incredible performance is matched with outstanding energy efficiency.

Comfortable avant-garde design

The Packard Bell **i**media combines a sleek glossy black chassis with matt accents and soft curves highlighted by a glowing blue power on/off button. It is 60% smaller than a standard desktop chassis, for space saving but still offers the same power and smart features as a full-size desktop.

User-centric media ports, smartly front-mounted, give an easy access to multimedia functionalities such as transferring your precious files from a memory card to the Packard Bell **i**media hard disc drive.

A convenient storage deck, on the top of the tower, allows users to plug in external devices and place personal items on it, such as MP3 players or digital cameras that you can safely place right next to the two top connection ports out of six.

Fully equipped

The Packard Bell **i**media features up to 2 TB of hard disc drive capacity and is available with an optional Blu-ray combo drive. Peripheral connectivity is made easy thanks to 6 USB 2.0 connectors, 1 VGA output and a multi-card reader.

¹ Up to AMD Phenom™ X6 1055T processor or up to 960T AMD Phenom™ X4 processor.

Multimedia performance is driven either by the ATI Radeon™ HD 5570 graphics or by NVIDIA GeForce® graphics (up to the NVIDIA GeForce® GT330 with 2GB video memory), both supporting Microsoft® DirectX 10 and High Definition 7.1 surround sound with a SPDIF connector. An optional DVBT TV tuner with remote control and Wi-Fi are also available.

For enhanced user experience, the Packard Bell **imedia** comes standard with a keyboard full of multimedia keys (play, pause, forward and backward) and with a circular-motion scrolling volume control key.

A smart cable management system enables to hide the tangle of USB cables that can be connected to your PC, just having the wires rolled around the embedded hook for a neat and clean cable aspect.

Collection of software

Software is what makes a desktop fun and interesting, from productivity to education, games to the Internet and digital photos to entertainment. All Packard Bell **imedia** desktops are natural entertainers, with a wide range of top titles from the leading names in software. The Packard Bell software offer includes Norton Internet Security™, the full version of Adobe® Photoshop® Elements 8, Nero 9 Essentials and Microsoft® Works 9. It also comes with a collection of online applications and services from Metaboli and Wild Tangent to download best in class games to e-Bay and Skype.

The Packard Bell **imedia** featuring the newest AMD processors will be available in European outlets on May 12th starting at the estimated price of 699€.

Availability, software and technical features may vary according to country and configuration.

About Packard Bell

Packard Bell pioneered the use of the PC in the home, taking an office tool and turning it into a friendly, indispensable feature of today's modern home. Stylish products with cool features, accessible to everyone, are the hallmarks of the brand - a unique combination that no other brand in the European market offers today. In 2008, Taiwan-based Acer Inc. acquired Packard Bell. In 2009, the Acer Group fully benefited from its multi-brand strategy, establishing itself as the second-largest PC company in the world and as the number two worldwide notebook vendor. Within the Acer Group, Packard Bell strives to design environmentally friendly products and establish a green supply chain through collaboration with suppliers.
