Packard Bell unveils slimmest ever all-in-one PC

- New 65% slimmer, ultra-chic design
- Personalised touchscreen experience
- Performance that packs a punch

Packard Bell today announced the arrival of the revamped **PB oneTwo**, all-in-one PC. Available in the shops from November, the new **PB oneTwo** retains the features that made it such a success, with a stunning new, streamlined design that looks great in any home.

Luca Rossi, EMEA Consumer Division Director, says “The **PB oneTwo** has been a sales hit for Packard Bell, and this new version demonstrates the company’s firm commitment to the all-in-one market.”

No more clutter: the new **PB oneTwo** is a cinema, digital TV, sound system, photo gallery, meeting point, monitor, DVD player/recorder (including Blu-Ray playback) and more, in just one, super-sleek design. This is what consumers have been demanding, this is the future.

Ultra-slim, good looks...

Now 65% slimmer, the **PB oneTwo**'s cool design looks great wherever you place it. Light enough to carry from room to room, you can adjust the tilt – so you get perfect viewing whether it's mounted on the wall or placed on a desk.

The new hub of the home

The **PB oneTwo** is the new interactive hub for the home and the window to your digital world - a place to have fun, play games, listen to music, watch TV, share experiences, video chat and so much more. A meaty 2nd Generation Intel® Core™ processor supplies all the power you need for fast, seamless performance. Stunning graphics from nVIDIA®, AMD or Intel® support the amazing Full HD 16:9 display (1920x1080 resolution); vivid 5.1 Creative® THX® TruStudio PC™ with two 2.5 W speakers immerse you in the surround sound experience. The **PB oneTwo** brings your music, movies and photos to dazzling life.

Personalised touch experience...

Consumers are hungry for touchscreen capability, and the facts speak for themselves: the touchscreen market is growing fast as tactile screens are now appearing on all sorts of devices and make the consumer experience cooler than ever.

Available in 21.5" or 23", the **PB oneTwo** offers intuitive touch capability that's so easy to use, even the PC novice can pick it up straight away. So you can scroll, pinch, flip and zoom, just using your fingertips.

Besides including all Windows® 7 built-in touch capability, the **PB oneTwo** offers an array of cool touchscreen widgets that make the oneTwo experience come alive. Just one touch, and you can connect with friends on Facebook® or Flickr, view YouTube, tweet on Tweeter, share photos, head to your favourite web pages and so much more. You can even handwrite a memo on-screen, set an alarm, or create a slideshow with your own, personalised soundtrack.

It's all thanks to the PB TouchPortal – the starting point for playing with PB TouchGadgets and Microsoft touch applications.

Want to see where you're headed for your week away? Just take a look using Microsoft Globe. You can also use Cooliris to create a stunning wall of photos. Or get creative and enhance your pictures using Adobe® Photoshop® Elements 9-full version. The **PB oneTwo** is packed with fun, inspiring applications to enhance your interactive experience.

Super-connectivity

Downloaded a movie onto your tablet but want to watch it on a big screen? Want to edit the photos you took today? Or enjoy your favourite music stored on your hard drive with full surround sound? Just connect up to **PB OneTwo** – 4 USB 2.0 ports, 2 USB 3.0 ports for extra quick data transfer, a 5-in-1 card reader, HDMI®-in , jacks for audio in and out mean you can connect your digital camera, tablet, mobile phone, hard drive, headphones and more with ease.

Price and availability

The **PB oneTwo M** (21.5") will be available on shelves in November 2011 starting at an estimated street price of 599€.

The **PB oneTwo L** (23") will be available on shelves in November 2011 starting at an estimated street price of 699€.

Availability, software offer and technical features may vary according to countries.

About Packard Bell

Packard Bell pioneered the use of the PC in the home, taking an office tool and turning it into a friendly, indispensable feature of today's modern home. Stylish products with cool features, accessible to everyone, are the hallmarks of the brand - a unique combination that no other brand in the European market offers today. In 2008, Taiwan-based Acer Inc. acquired Packard Bell. In 2009, the Acer Group fully benefited from its multi-brand strategy, establishing itself as the second-largest PC company in the world and as the number two worldwide notebook vendor. Within the Acer Group, Packard Bell strives to design environmentally friendly products and establish a green supply chain through collaboration with suppliers.
